FISCAL YEAR 2012-2013 RECOMMENDED BUDGET

To: Beaufort County Board of Commissioners

Jerry Langley, Chairman

Robert Cayton, Vice Chairman

Ed Booth

Stan Deatherage

Al Klemm Jay McRoy

Hood Richardson

From: Randell Woodruff

County Manager

Date: May 7, 2012

As we commemorate the historic events of the past three centuries, the financial challenges of recent years remain vivid in our minds and the next fiscal year is quite sure to be challenging. Basically there is new normal which has descended upon local governmental entities requiring financial matters be addressed in a more cautious manner. We must continue to work together as you are accustomed to doing to be creative and innovative in funding the necessary services to the citizens of Beaufort County.

This is certainly a budget intended to maintain the current level of services while at the same time having basically the similar revenue level as the current fiscal year. Unfortunately there are some significant needs across the various departments of the County Government which are unable to be funded at this time. A concerted effort was made to prioritize all of these and to fund the most urgent during this fiscal year and to leave others to be funded in future years. Hopefully as the economy gradually improves, there will be greater opportunity to address those present unmet needs.

The department heads in several instances requested additional positions that are needed for key areas. Again, unfortunately the majority of these were not recommended as the revenue is just not available this year to cover these requests. Included in the budget are recommendations for a new maintenance staff position, a new animal control officer and a part-time receptionist for environmental health. One of the most important duties we have is to maintain and care for the county facilities and infrastructure. Therefore, I believe it is essential to add this new maintenance position. While the County has done a great job of reducing staffing and contracting for services, there is obviously a serious need for more on-staff maintenance oversight of the facilities. Similarly the Animal Control Department has struggled due to a lack of staff to cover all of the incoming calls from citizens. It is not efficient to have the Director on the road responding to calls rather than being on site to effectively administer the program. With the Environmental Health Office there has been a consistent need for a staff person to provide office coverage while the other staff is working in the field.

The process of going through each department budget request has been done in a very thoughtful and deliberate manner considering the overall needs and financial capabilities of the County. In my attempt at full transparency I have also highlighted all expansion items and have listed these in detail and narrative summary in the section titled *Department Expansion Requests* within this publication.

Recommended Tax Rate

I have recommended that the tax rate of 53.00 cents remain the same for the upcoming fiscal year. Of course, this is contingent upon the outcome of the pending referendum for the $\frac{1}{4}$ cent sales tax increase which is intended to reduce the ad valorem tax rate by the equivalent amount.

Manage finances wisely and encourage a balanced approach

It is essential that Beaufort County Government continue to strengthen its financial position and this of course includes growing the fund balance which is currently at approximately \$11.16 million or about 19% of General Fund expenditures. At the close of the current fiscal year it is anticipated that fund balance may grow by approximately \$1.2 million. I have been tasked with growing fund balance to a level that represents an average of our peer counties. Currently when reviewing our peer counties the average fund balance percentage is 26.5% as

reported in the most recent NCACC Annual Fiscal Summary. As a coastal county, Beaufort must be prepared for when the next hurricane strikes be it this year or five years from now. The County must have adequate resources on hand to deal with these unexpected costs and to assist our citizens when they are in need. Keep in mind that our current fund balance amount would only give us the flexibility of having operating funds to get the County through almost three months in the event of an emergency. As important as the fiscal health, a fund balance percentage similar to peer counties also helps the County maintain it's strong financial rating with our bond rating agencies, Moody's and S&P. With possible jail financing in our future we must maintain this rating to ensure the best possible interest rate.

An important next step in the County's financial management is the development of a Capital Improvement Program which will highlight and annually update the facility improvements/maintenance, and capital needs. This will of course include items such maintaining our existing buildings/infrastructure, as well as studying the future needs. I encourage you to support this effort which the Assistant Manager and I hope to present to the Board next calendar year.

Improve the lives of citizens and foster a sense of community

I applaud the Board for its appropriation of \$10,000 earlier this fiscal year to start off the activities to commemorate the Tri-Centennial of Beaufort County. Since that time the Committee has worked diligently to organize and plan appropriate

activities for the entire County. During this time approximately \$65,000 in additional funds have been raised by the Committee.

Plan responsibly for the needs of a growing and diverse community

I encourage the Board of Commissioners to support beginning discussions on conducting a Comprehensive Plan for Beaufort County in early 2013. This important process will allow citizens the opportunity to express their ideas and desires for the future growth and development of the County in the areas of transportation, economic development, community facilities, environmental issues and recreation.

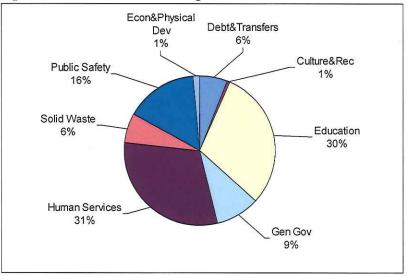

Provide outstanding customer service to the public

Maintaining a well-trained and high performing workforce is essential in accomplishing the goal of providing outstanding customer service to the public. I am proposing that during the upcoming fiscal year the County conduct customer service training for all staff to build on the strong foundation the staff already has in this area.

Funds

General Fund – This is the County's major operating fund, and is where tax dollars are deposited. We break up the General Fund into eight functional areas for budgeting purposes. These areas are; General Government, Safety, Economic/Physical Development, Human Services, Education, Culture and Recreation, Debt Service/Transfer to

Other Funds, and Solid Waste. The Board of Commissioners historically adopts the budget at the functional area level. The chart below depicts FY 2013 Recommended Budget expenditures with no offsetting revenues.

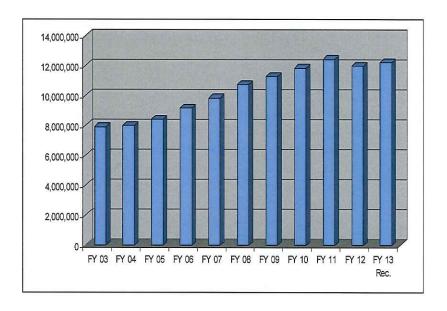

Water Districts Enterprise Fund – This is the self-supporting fund used to maintain the operations of the Water Department which includes the seven (7) water districts in the County. This fund is restricted to the operational and distribution costs of water to the approximately 12,000 customers. The Board has historically received the Manager's Recommended Budget for the Water District Enterprise Fund by the second budget workshop.

Beaufort County Schools

Public education is an important component of a healthy community. We must consider these appropriations as an investment in the future of Beaufort County. For FY 2012-2013, I am proposing the County contribute \$13,180,511 to the Beaufort County Public Schools. This provides \$12,218,451 for schools current expense and \$962,060 for capital outlay. In addition the County will fund \$2,581,225 for school debt service on the existing capital debt obligation. Recommended Current Expense contribution represents an increase of \$223,301 or 1.86%. The Capital Outlay represents an even funding level when you account for the estimated Lottery Funding that the County anticipates drawing down in FY 2013. While I am greatly concerned with the reduction in low-wealth funding and other areas, it is just not financially prudent at this time for the County to attempt to make up the full reduction of the state funding. It remains my hope that the North Carolina General Assembly when it convenes on May 16, 2012, will work to restore some of the funding the State reduced previously so as to prevent any further program or staff reductions at the local level.

It is important for you to look at the larger picture to see a comparison of how other Counties in the state are funding their school systems. Even during the difficult economic times of recent years, you can see that Beaufort County has done very well by funding schools at \$1,709 per pupil and still maintaining the ranking of 26th out of the 114 school systems in North Carolina for funding per pupil. This is a statistic the citizens of the County should be proud of.

The table below provides a ten year history of Beaufort County's appropriation of Current Expense to the Beaufort County Schools.

Beaufort County Community College

The citizens of Beaufort County and the region are quite fortunate to have access to this institution of higher learning. It has a long history of serving this community and interacting with the existing businesses. Included within the budget is an increase of \$205,985 which is basically to provide for the operational costs of the new Allied Health Building on campus. This program will most assuredly assist in the generation of new jobs and revenues for the County as well as the region. In addition to this direct funding to the

Community College the County will see increased debt service estimated at just over \$200,000 for closing on the loan with USDA which is expected to occur in FY 2013 when the Allied Health Project is finalized.

Funding of Culture and Recreation Programs

Supporting local programs within the County that provide a service to residents outside the normal functions of the County has been something that the Board has chosen to fund but examine funding very closely. I have studied the historical funding of these programs and the increases within this budget is reflected only in a minimal increase for BHM Library for personnel benefit increases they will incur as well as a small increase for the HWY 17 Association.

Employee Compensation and Benefits

Included within the recommended budget is funding for a 2% Cost of Living Adjustment for all County employees. While the emphasis is focused on reducing costs in every way we can, it is still extremely important to support and appreciate the hard work of County staff. This is the first COLA for the County employees in three years. Additionally I have proposed increasing the County contribution to the staff 401k program as well by .5%. This is an affordable way to strengthen their benefit package with a cost of \$44,404 which is calculated pre-tax and it is much less costly as opposed to an additional .5% of salary increase.

It has been four years since a pay and equity study has been completed, and as inequities begin to appear in the County pay system it will become necessary within the next two years to conduct an updated pay and classification study. Based on the corrections made in the previous study, and the current economic market I feel that a study completed will not impact the entire County but will focus on certain job classifications. While the County overall has good pay and benefits, emphasis is needed to improve the employees leave earning rate to make it comparable to our surrounding counties.

Health Insurance

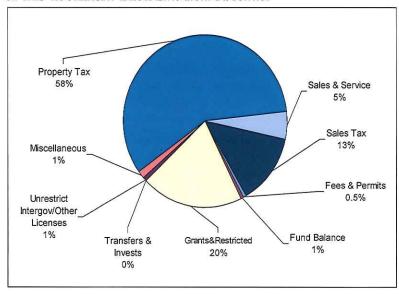

The health insurance coverage or the County employees will increase by 5% over the current fiscal year and represents an estimated \$87,191 increase in our operating budget. As you are aware Beaufort County participates in the State Employees Health Plan.

Retirement Benefit

The local government retirement costs have decreased for the next fiscal year due to the Retirement System Board of Trustees reducing the annual retirement contribution by a .14 percentage point reducing the County contribution by approximately \$15,000. The Retirement System Board also approved a three-year holiday on the death benefit payments by counties which will save significantly.

Revenues

The graph below depicts the total County revenues by type for the General Fund. Revenue detail can be found in the section of this document titled *Line Item Revenue*.

Property Tax makes up the majority of the revenue available for County appropriations. FY 2012 saw unprecedented growth in real and personal property of just over 1.6%, primarily due to continued expansion at two industries within Beaufort County. Equally surprising to our staff was the 5.08% growth in Motor Vehicles which has seen on average 5.8% decline in growth each year over the past four fiscal years. This unexpected growth added to the predictions that the Tax Office can continue to hit their FY 2011 Actual collection rate of 95.80% for real and personal property and

83.59% for motor vehicles will allow the County to strengthen the growth of fund balance. The Manager's Recommended Budget takes a conservative estimate in predicting growth of real and business personal property of only 0.75% based on continually bad economic conditions and concerns about numerous properties destroyed by Hurricane Irene and not yet rebuilt. Our staff has not yet received listings for business personal property that may warrant a more aggressive prediction of increased growth. The predictions estimated for growth of motor vehicles is far more aggressive with estimates of 1.5% growth, even with historical years where no growth existed. With these estimates and applying the same collection rate as was achieved in FY 2011, the County should see Property Tax revenue growth of \$265,427. As with any prediction your staff will be challenged with evaluating the reality of these estimates and reporting back to you if concern exists or if these predictions prove to be too conservative.

Sales Tax represents the second largest unrestricted revenue that the County has available for spending. When comparing FY 2012 End of Year Estimates vs. the FY 2013 Recommended Budget a reader may question why am I predicting a decrease in Sales Tax for next year over what will be realized in the current fiscal year. The answer is that the County has experienced unusually large disbursements of the locally disbursed (vs. state shared) Sales Tax revenue for three months in the current year. I feel, due to the economic climate in Beaufort County and the revenue that has been received in the remaining months, that the increased revenue for these months represents a temporary spike in local spending most likely due to the response to and work done directly after

Hurricane Irene. I, like everyone else in Beaufort County, hope that retail sales increases, but the most recent months don't allow me to make such aggressive predictions. We are receiving figures from the State that our State shared Sales Tax revenue is doing better than predicted and therefore there is some growth expected in that area.

The major revenue impacts for FY 2013 are a result of Federal cut backs that directly impact programs provided by the Department of Social Services. TANF cuts of 20% are predicted, continual cutbacks of IV-E funding are possible, and stimulus food stamp funds are still not available. These cuts happen at a time when the Department of Social Services continues to be required to provide the same level of service in order to be eligible for administrative funding and other funds that offset a large percentage of their operation. The caseload sizes still continue to increase and with decreased funding the County is tasked with providing mandated services. The Department of Social Services has worked well with me and my staff in predicting these possible funding cuts and has frozen positions voluntarily until the total impacts are realized.

Capital Projects

As you are aware the County has begun the process of having the Jail Committee study the needs and design for a new facility. Hopefully during the next 9-12 months this work will be completed and the Board of Commissioners will continue with the work on the site selection process. Optimally, this planning period would coincide with a strengthening of the economy which will allow for increased revenues to cover the issuing of public debt to fund the construction of the facility without any tax increase.

The Water System Connection Project which is still in the planning and grant application phase will be a crucial addition to the existing infrastructure of the Water Department. Having this connection between the northside and the southside systems will be key to improving service and supply during the Summer months as well as reducing costs for the County. If successful in the grant application process the County Water Districts will be required to make debt service payments that will pay off what we hope will be no more than \$50,000 if 80% grant funding can be obtained.

The Allied Health Building on the Campus of Beaufort County Community College is nearing completion and will most likely be completed by September 1, 2012. This project will be funded by grants from USDA Rural Development, Federal Economic Development Administration, loan funding from USDA and we are hopeful from a pending grant through the Golden Leaf Foundation. The debt service payment is included in the budget for this project for a partial year as the loan won't close until late 2012.

The IT Committee continues to function meeting on a regular basis to discuss the technology needs and meet with vendors on various projects including upgrading the software in the Tax Administration Department and the Register of Deeds Office. Funding to cover the new system for the Tax Administration Department and the Register of Deeds is not included in the recommended budget at this time as the

committee is still engaged in meetings with vendors and the costs are not finalized yet. Also included in the proposed budget are funds for developing a new county website.

Economic Development

With the start of the new fiscal year the County Economic Development Program will be invigorated as a new Director is recruited and comes on board. It is essential for the focus to remain on growing the tax base and creating jobs of various skill levels for all of the citizens of the County to have an impact on reducing the high unemployment and poverty here.

Conclusion

This recommended budget has been the result of a massive effort by the Assistant County Manager and Chief Financial Officer, Jim Chrisman and his staff. His expertise, knowledge and assistance has been and continues to be invaluable.

I look forward to meeting with each of you in group and individually to further refine the budget as the process moves forward. Please feel free to call, email, or come by to discuss any specific areas of interest or concern.

Respectfully submitted,

Randell K. Woodruff, County Manager

Budget Officer

Revenue Detail

Revenue by Source:

The graph shows total County revenues by type for the General Fund. As the graph demonstrates, the majority of the County's revenue comes from property tax. Another significant source continues to be the local option sales tax.

Detail on Expansion Items

The explanation below provides further detail on the expansion items listed in the previous table. These items include both requests by departments and items that are included in the FY 2013 Manager's Recommended Budget. The list follows the table and will allow the reader to determine what items are recommended within each department.

Elections-The FY 2013 Recommended Budget includes the following requests from the Elections Department that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012

- 1) Additional funds in the amount of \$8,000 to allow for two additional satellite One Stop Voting precincts (one in Belhaven and one in Aurora) as recommended by the Board of Elections.
- 2) Finish a two year phased process of accomplishing ADA compliance at every voting precinct through the purchase of ADA compliant voting booths for a total cost of \$17,700. The Elections Director applied for and received a grant in the amount of \$29,000 in FY 2012 that funded first phase of the process, but no additional funding is available for FY 2013.
- 3) Purchase system that would allow all voting precincts to have voter registration records electronically available instead of paper records as each site for a total cost of \$8,500.

In addition the Board of Elections recommended the following item that is not included in the Manager's Recommended Budget;

➤ A requested new position that would assist the Elections Director in the day to day operation of the Elections Office, based on workload increases that are a result of new campaign finance tracking restrictions and other voter registration increased duties.

Register of Deeds-The Register of Deeds submitted an expansion request for FY 2013 in the amount of \$74,043 in order to accomplish an IT initiative that would allow her to index her deeds

and other public information online for better public access. This project has been studied by the IT Study Group and the Manager's Recommended Budget does not include an appropriation as the Board of Commissioners will need to approve this appropriation. The appropriation, if approved will come from Register of Deeds restricted revenue.

Public Buildings-The FY 2013 Recommended Budget includes the following requests from the Maintenance Department that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2011.

- Fund a new position that would assist the Maintenance Supervisor in the day-to-day operations of the county buildings. This position would likely save the county money by decreasing the contract labor and will provide the county expertise in numerous future projects.
- 2) Purchase a new vehicle. The truck that this Department once utilized was transferred to another Department due to a vehicle shortage.
- 3) Repair the outdoor lighting courthouse bollards at a total cost of \$3,000.
- 4) Paint two courtrooms in the courthouse for a total cost of \$15,000.
- 5) Recover roof between Courthouse Annex and BHM Building with ½" insulation, install rubber roof in that section, and add drain for a total of \$4,030.
- 6) Recoat the roof of the Admin Building for a total cost of \$1,750.

- 7) Saniglaze, tile, and grout restoration for all bathroom and foyer flooring in the Seaboard Building for a total cost of \$8,096.
- 8) Upgrade UPS/generator protection for the Seaboard Building for a total cost of \$41,374. In the past five years the County has centralized IT functionality and all infrastructure exists within a locked server area within the Seaboard Building. This has created a situation where more equipment is creating a higher load on the UPS backup and generator which is more than can be handled by the current system. With numerous temporary power flickers and power outages occurring, it places strain on the system that runs our network.
- 9) Needed painting in numerous offices and common areas of the DSS Building for a total cost of \$2,000.
- 10) Paint "No Parking Fire Lane" areas in the rear of the DSS Building for a total cost of \$1,000. These areas are not designated at the building currently and due to the amount of traffic around the building the fire marshal has recommended that this marking be completed.
- 11) Saniglaze, tile, and grout restoration for all bathroom and foyer flooring in the DSS Building for a total cost of \$14,168. This building sees some of the highest traffic of all County buildings and the restoration ensures a long life of the tile flooring.
- 12) Replace the broken security gate at the Department of Social Services for a total cost of \$3,500. The locked gate ensures security for employees who have to enter the building at night for on call situations and has allowed employees to separate themselves from upset clients involved in child abuse or neglect investigations.
- 13) Replace the tile floor in the old file room at the Department of Social Services for a total cost of \$2,100. With the automation of records the Department of Social Services has been able to remove their paper records and has opened this area for electronic scanning and other administrative

- functions. The area formerly occupied by the file cabinets and storage has a damaged floor that is aged and needs replaced.
- 14) Replace the sign on the Maintenance Building for a total cost of \$500.
- 15) Recoat the roof on the Emergency Operation Center for a total cost of \$1,125.
- 16) Seal, coat and stripe the parking lot of Animal Control for a total amount of \$1,650.
- 17) Install gutter guards on the Animal Control Building for a total cost of \$1,985. The gutter guards will save time and money for staff and contractors who annually have to remove clutter and debris from the gutters.
- 18) Replace duct work that has been damaged under the slab of the Emergency Operations Center for a total cost of \$11.084.In addition, the Maintenance Department requested the following items that are not included in the Manager's FY 2013 Recommended Budget;
 - Maintenance up fit of the main service elevator at the courthouse for an estimated cost of \$126,300. The elevator's pistons are in need of maintenance. The project was put off in FY 2011 and in FY 2012 minor maintenance was done to offset the total cost of this project. At this time the Manager's Recommended Budget does not include an appropriation to cover this project, but as was stated last year a malfunction of the elevator will require a midyear appropriation to remedy the situation.
 - Seal, coat and stripe the courthouse and farm services parking lot for a total cost of \$10,925. Historically the County has tried to fund these projects in phases and the Manager's Recommended Budget includes funds to complete the Animal Control parking lot but not the Courthouse or Farm Services Building.

- > Replace the carpeting at the Administrative Building.
- Paint the Sheriff's Office hallway and offices for a total cost of \$17.375.
- > Replace carpeting and tile at the Sheriff's Office for a total cost of \$30.585.
- > Replace carpet and tile in hallways and offices of the Admin Building for a total cost of \$18,582.
- > Put off a Phase II carpet replacement at the old Tideland Building for a total cost of \$11,619.
- Repair the parking lot of the old Tideland Building for a total cost of \$180,000. The requested project would require the removal of asphalt and curb up to 12 feet of the building, regrade by adding up to 4 inches of stone, and then repave the parking lot. The Manager recognizes this as a need, but due to the cost not a priority for funding in FY 2013.
- ➤ Construct a security wall to protect server equipment and install cooling system for the Farm Services Building for a total cost of \$7,500.
- > Replace the sign in front of the Farm Services Building for a total cost of \$8,000.
- Purchase and install ice machine and stove at DSS for a total cost of \$8,472.
- Demolition of the old County Home building and removal of debris for a total cost of \$200,000. This, like the courthouse elevator and Tideland Building parking lot, is noted by the Manager as items that need to be accomplished in future budgets, but has not been prioritized for the FY 2013 Recommended Budget.

Sheriff's Office- The FY 2013 Recommended Budget includes the following requests from the Sheriff's Office that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

- 1) Purchase and replace 14 out of date bullet proof vests for a total cost of \$8,400.
- 2) Purchase of uniforms for outfitting Criminal Investigators at a total cost of \$6,165.
- 3) Purchases of needed Narcotics leather and concealment uniforms for a total cost of \$3,000.
- 4) Purchase Narcotics uniforms and suits for a total cost of \$10,740.
- 5) Purchase of patrol uniforms and accessories for a total cost of \$27,000.
- 6) Purchase of office staff uniforms for a total cost of \$2,000.
- 7) Replacement road "stinger spikes" at a total cost of \$6,765.
- 8) Purchase and installation of 12 "Go-Rhino" vehicle front guard push bars for a total cost of \$6,000. A recent liability insurance review identified deer collisions as the condition that causes 90% of accidents with Sheriff's vehicles. The Sheriff is attempting to implement this equipment on all patrol vehicles in stages.
- 9) Purchase and install desks, shelving stacking chairs, and office chairs in select offices for a total cost of \$2,720.
- 10) Purchase various Narcotics surveillance equipment for a total cost of \$6,665.
- 11) Replace 5 desktop PC's, 3 laptop PC's, 4 Mobile Patrol PC's, 9 External Hard Drives, a printer, 9 mobile laptop mounts, and 10 digital cameras for a total cost of \$19,577.
- 12) Install a building security access system to control access and monitor the security of the facility for a total cost of \$9,303.
- 13) Purchase and installation of a new data server system that acts as the database and CAD system for all information systems in the Sheriff's Office for a total cost of \$45,927. The system stores all data and Sheriff records and syncs with jail and the 911 system for information control and tracking.
- 14) The replacement of 7 vehicles (Dodge Chargers) for a total cost of \$187,740. The Recommended Budget falls short of the Sheriff's request to replace 16 vehicles based on the

Sheriff's Office internal policy of requesting replacement for vehicles with over 100,000 miles. The Recommended Budget seeks to replace daily use vehicles that have or will have 130,000 miles as documented by the April 2012 Sheriff's Fleet Report. The past four fiscal years have seen replacement of Sheriff vehicles at an average of 3-4 per year which has created higher mileage on those vehicles declared surplus and preventing the County from reallocating them to other Departments which is evidenced in the replacement requests of numerous Departments for FY 2013.

In addition, the Sheriff's Office requested the following items that are not included in the Manager's FY 2013 Recommended Budget;

- ➤ A request to unfreeze a position that was deemed "frozen" by the previous County Manager in the FY 2010 Budget.
- An increase in salary for the Operations Manager of the Sheriff's Office. The Manager acknowledges the additional duties that have been assigned to this position, but through the FY 2013 Budget process the Manager hopes to discuss with the Board the possibility of looking into a salary and equity study to examine this situation and others identified within the County.
- A request to increase the drug "buy money" appropriation by \$55,000.
- The purchase and installation of 6 additional mobile in-car video systems for a total cost of \$25,590.
- ➤ Request to purchase various surveillance recording devices for Narcotics in the amount of \$12,040.
- A request to purchase a color camera CCTV system for the office in the amount of \$5,085.
- A request to increase overtime in the amount of \$150,000 to increase Investigations ability to provide additional time to work on cases as well as handle shift times for patrols.

Jail- The FY 2013 Recommended Budget includes the following requests from the Jail that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

- 1) The reclassification of four current Detention Officers to a "lead worker" or officially a Corporal titled position for a total increase of salary and fringe for all four positions of \$6,627. The reclassification would allow for assignment of a supervisor on all shifts in the jail.
- 2) Purchase and installation of a commercial washer and dryer in the jail for a total cost of \$20,505. The staff anticipates the in-house laundry would save an estimated \$18,000 annually by cutting back on contract laundering that is currently being sent out.
- 3) Replacement purchase of radios and radio repeater that will allow staff to safely maintain communication with each other and the Sheriff's Office staff for back up assistance when needed for a total cost of \$7,704.
- 4) Replace a laptop for a total cost of \$1,809. In addition, the Jail requested the following items that were not included in the Manager's Recommended Budget for FY 2013;
 - The request to create a new Sergeant position for the Jail. The Manager hopes to get a better understanding of the Jail operations through the participation in the Jail Study Committee and this request may have higher priority for funding in a future fiscal year.
 - A request to increase the salary of the Captain's position in the Jail was not included in the Recommended Budget. The Manager received numerous requests for salary increases and will likely have discussions with the Board during the budget process in the possibility of a future salary and equity study to determine where the County stands in regards to peer counties.

- A request for additional plumbing supplies for the jail was not funded, but staff recognize that when these fixtures get damaged they must be replaced but am hopeful that current budget allocations will be sufficient to fund these items.
- Request to purchase and install an inmate video visitation system for a total cost of \$43,635.

Emergency Management- The FY 2013 Recommended Budget includes the following request from the Emergency Management Office that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

- 1) Complete the final step for FCC mandated narrow banding of radios and purchase software that will allow County staff to program future radios for narrow banding compliance at a total cost of \$7,000. The software purchase cost will be recouped in future years in savings from not relying on outsourced contractors for programming new and modified radios.
- 2) Purchase of five 800 system radios to share with local fire and rescue squads so that interoperability will exist within the County between State Patrol, Sheriff, Fire, Rescue and local Police.

In addition, the Emergency Management Department requested the following item that is not included in the Manager's FY 2013 Recommended Budget;

A request to fund a new position to assist the Emergency Management Director in required reporting, tracking of fire/rescue certifications, and other increased mandated duties that the Emergency Management Director and Fire Marshal have picked up.

Building Inspections- The FY 2013 Recommended Budget includes the following request from the Building Inspections Office

that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012

1) Replacement of a truck that will be purchased at State Contract pricing (or below) for a total request of \$16,250. Currently the Building Inspections Department has two vehicles that are over 150,000 miles with one that will likely surpass 200,000 miles in FY 2013. The Manager's Recommended Budget reflects the replacement of this vehicle.

The Building Inspection Department requested the following item that was not included in the Manager's Recommended Budget for FY 2013.

> Addition of a new Building Inspector position for the Department.

Animal Control- The FY 2013 Recommended Budget includes the following requests from Animal Control that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

- Add an additional Animal Control Officer position for a total cost of salary and benefits of \$35,465. Current call volumes and tasks associated with maintaining the facility has caused customer service issues with the public. The Manager's Recommended Budget allocation of funding for this position seeks to remedy this situation and increase customer service in this Department.
- 2) Replace a vehicle that has over 178,000 miles and outfit with equipment for a total cost of \$25,000.

Soil and Water Department- The FY 2013 Recommended Budget includes the following requests from the Department of Social Services that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

- 1) Replace a current copier with a lease agreement for upgraded copier for a total cost of \$2,350. The contract will provide the copier as well as service, support, and toner.
- 2) Purchase of a digital camera for documentation and educational projects for a total cost of \$500.

The Soil and Water Department requested the following item that was not included in the Manager's Recommended Budget for FY 2013.

Request to purchase a vehicle and funding for fuel and maintenance for a total cost of \$30,514.

Department of Social Services- The FY 2013 Recommended Budget includes the following requests from the Department of Social Services that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

1) The reclassification of eight Social Worker positions, one Income Maintenance II to a Income Maintenance III position, an Income Maintenance II position to a Income Maintenance Investigator II (fraud investigator) and a vacant Income Maintenance Administrator to a Social Services Program Director. These reclassifications are recommended after the Department of Social Services reexamined their operations two years after the Reduction in Force of four positions in FY 2010. The recommendation does not increase the FTE's of the Department, but does consolidate the child welfare unit so all employees are on the same grade. This creates a scenario where duties can be assigned where needed as caseloads fluctuate making it more of a streamlined efficient unit. The automation of records created a system where fewer workers could do more and has allowed the Director to recommend that one eligibility position be modified to handle program integrity which will ensure compliance with eligibility requirements and audit records. This will result in fewer liabilities for the County from mistaken eligibility determinations as well as decrease

fraudulent claims for assistance. The reorganization of the eligibility and services unit also allow for more efficient oversight of these services and shifts the need for programmatic oversight to the adult and child welfare services. The total cost of these reclassifications will be offset by 50% reimbursed revenue as well as fall out from two current vacant position that the Director of Social Services has voluntarily agreed to freeze until State and Federal revenue impacts can be accurately measured. These vacant positions will not be filled if TANF funding cuts are realized as predicted.

- 2) Modification of the front counter receptionist area where clients of the Department are first seen. The modification of the front desk area will change the glassed in area that allows staff to provide better customer service, increase confidentiality, and allow for more efficient processing of client information with the new imaging system. This modification was approved in the FY 2012 budget but the implementation was held off in the current year.
- 3) Implement the Northwoods Compass System so that the entire agency is automated and paperless. The Board of Commissioners will remember that an appropriation was made for a multiyear automation process starting in FY 2010 and then finished in FY 2011 where all eligibility units went live with the system. That implementation cost just over \$400,000 and the Department saw immediate results with decreased staffing and annual recurring supply savings of over \$20,000. The Department of Social Services has worked on a process to expand the system to their services unit which would allow them to acquire agency wide implementation. Since the backbone of the system is in place the expansion of the system would cost DSS \$305,000 to accomplish. Staff recommends that the cost be broken up into two phases that would appropriate \$180,000 in year one (FY 2013) and the remaining balance of \$125,890 in year two (FY 2014). The expenditure in the FY 2013 Manager's

Recommended Budget included equipment and hardware that is 100% reimbursable by State and Federal funding so it represents a net "0" cost to the County in year one. The obligation would be the remaining payment in year two that would have no reimbursement attached to the cost.

- 4) Replacement of 10 desktop PC's, 5 Tablet PC's, 10 Monitors, 5 electronic signature pads, and 5 scanners for a total cost of \$34,023.
- 5) Replace 10 office chairs for a total cost of \$3,250.
- 6) Replace a data file server and a replacement web filter for a total cost of \$13,045.
- 7) Install an IT monitoring system that provides remote notification of issues with the IT hardware for a total cost of \$3,268. With the investment made in the IT equipment within the Department of Social Services staff recommends that a monitoring system be invested in to provide nights and weekend notifications of potential issues.

In addition, the Department of Social Services requested the following items that are not included in the Manager's FY 2013 Recommended Budget;

Increase the salary of an IT employee based on extended duties assigned. The Manager received numerous requests for salary increases and will likely have discussions with the Board during the budget process of the possibility of a future salary and equity study to determine where the County stands in regards to peer counties.

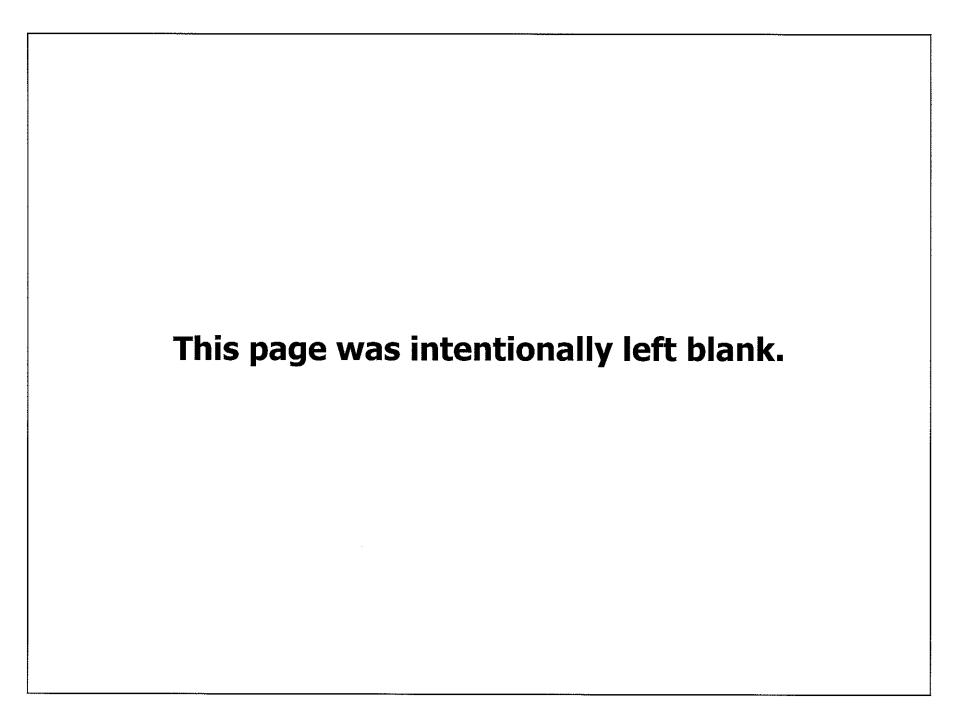

Health Department- The FY 2013 Recommended Budget includes the following request from the Health Department that represent funding initiatives above and beyond what the Board of Commissioners committed to in FY 2012.

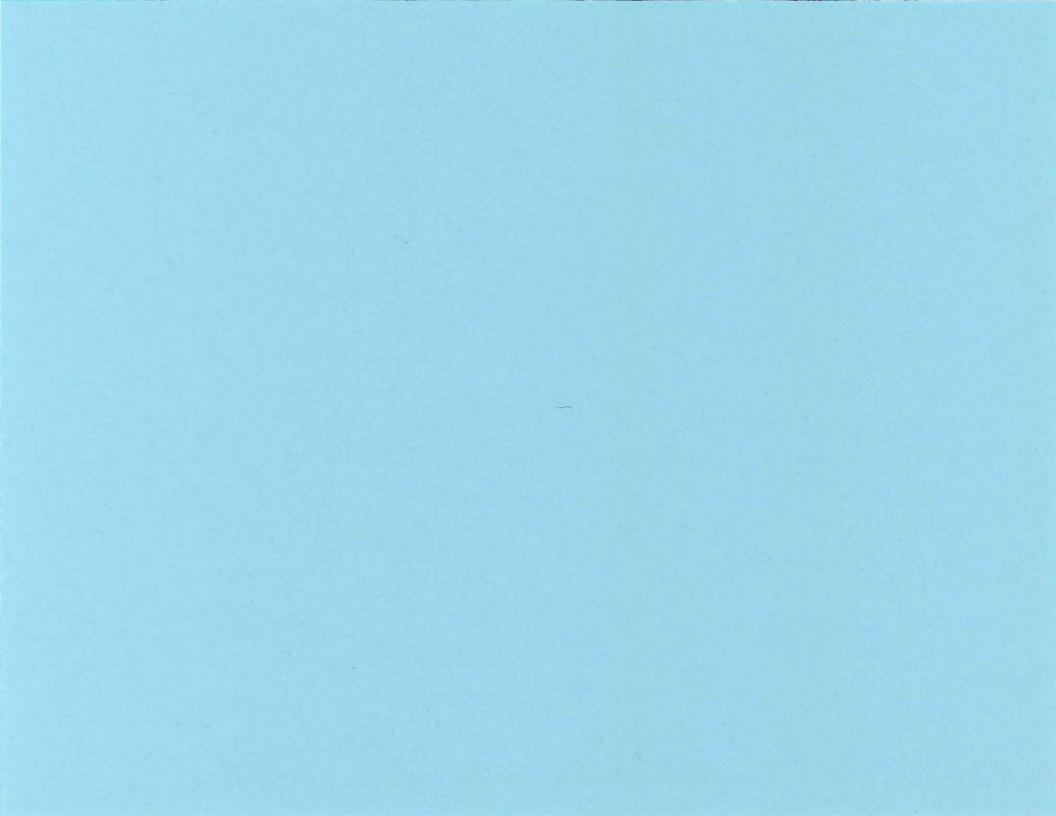

1) Creation of a new Administrative Assistant position to assist with the duties of both Environmental Health and Building Inspections customer service. The total cost of this position's salary and fringe of \$35,642 would be

- partially offset by a decrease of \$27,040 that the Department has submitted for the removal of a contract scanning temporary employee.
- 2) Replacement of a truck for Environmental Health under State Contract at a cost of \$17,517.
- Contract mosquito surveillance that would allow the Health Department to comply with new federal permitting for mosquito spraying.
- 4) The reclassification of an Accounting Technician and a Public Health Nurse II position.

In addition, the Health Department requested the following item that is not included in the Manager's FY 2013 Recommended Budget;

Environmental Health requested to purchase an additional car that staff feels that with "emergency" replacements authorized by the Board in FY 2012 the fleet health will be evaluated throughout the fiscal year to attempt to address any future replacement needs in upcoming budget cycles.

Debt Service, Contingency, Transfer to Other Funds

Debt Service, Contingency, Transfer to Other Funds:

Fluctuations within these costs centers communicate to a reader a picture of the County's financial future.

CONTINUATION / EXPANSION SERVICES:

Continuation: The majority of the County's debt service is attributed to school bond construction. The FY 2013 Manager's Recommended Budget includes payments in the amount of \$2.58 million for principal and interest for school debt. The main driving force in the increase in debt service in the Budget Year (FY 2013) is related to the addition of estimated Allied Health Building borrowing (\$209,433), as well as the return of principal payments for the Quick Start II Building (\$198,294) that the County successfully put off for two fiscal years in hopes of selling the property. This increased debt of \$407,727 is partially offset by decreases in payments as a result of paying off the old Tideland Mental Health Building and minor decreased costs in school bond debt. Hospital decreased debt payments represented pass through funding for the County and the prior year revenue as well as the decreased revenue in FY 2013 depict these payments gone with the account in escrow based on the closing with Vidant Healthcare.

Contingency

About Contingency:

Contingency is available only at the discretion of the Board of County Commissioners and is generally allocated for unanticipated expenditure items that may arise. The Manager's Recommended Budget includes an appropriation for contingency for FY 2013 of \$30,000 for items that may arise at the discretion of the Board of Commissioners. The reader should note that there are a number of expansion items (see section titled *Department Expansion Requests* at the front of the book) that may need attention during the FY 2013 which would require an appropriation larger than the amount currently recommended in contingency.

Transfer to Other Funds

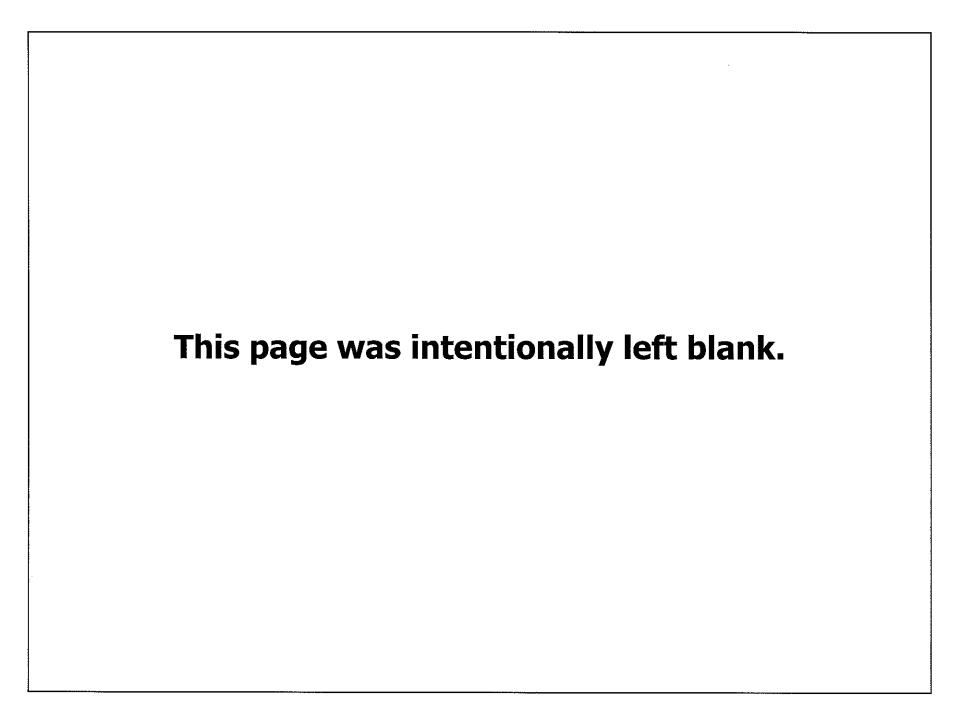

ABOUT TRANSFERS AND FUND BALANCE:

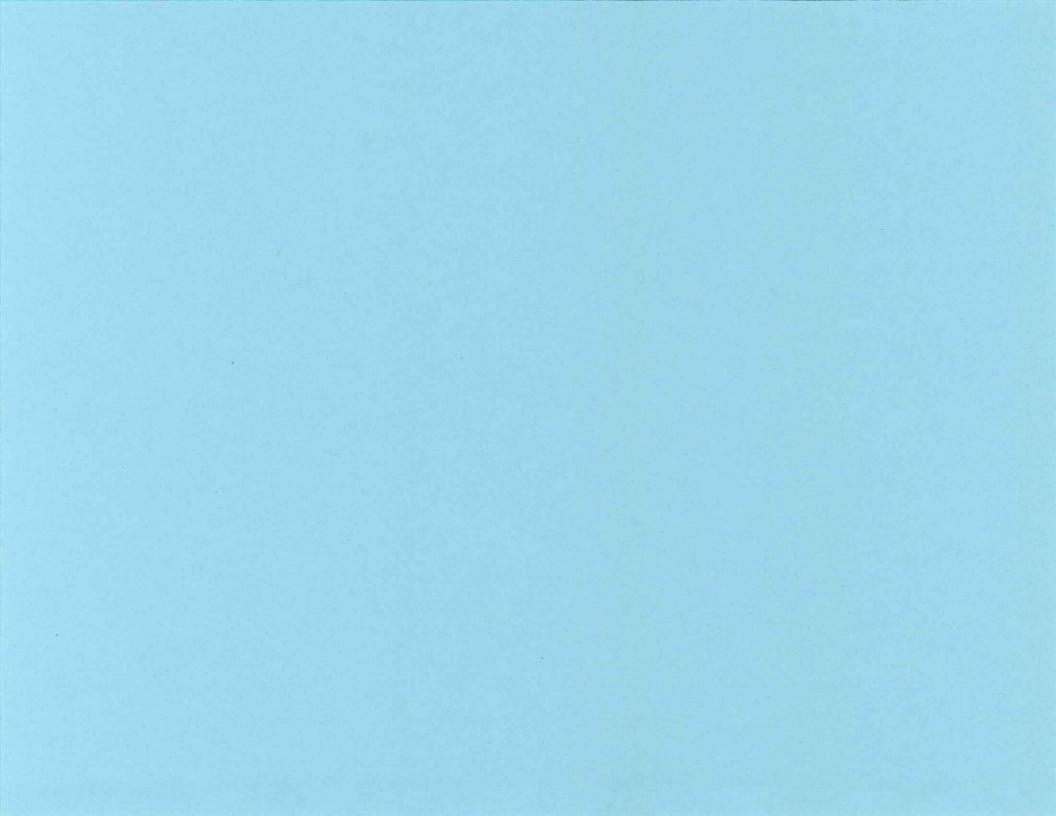

The "Transfer to Other Funds" cost center presents the County's planned transfers to other funds:

- The transfers made in FY 2011 represent one time county contributions to project funds primarily driven by the local appropriation for the Crisp Landing Property as a match to grant funding from PARTF and CAMA.
- The transfers made in FY 2012 are for one time transfers to the Chocowinity Sewer Line project that will locate a pump station at the industrial park site. There are no projects planned for FY 2013 that would require transfers or contributions from the General Fund.

Beaufort County Community College

About Beaufort County Community College:

Beaufort County Community College (BCCC) depends on local funding for recurring operating expenses (current expense) as well as capital needs.

BUDGET SUMMARY

| 0 | 0 | 0 | 0.0% |
|-----------|-----------|---------------------|-----------------------------|
| 0 | 0 | 0 | ი ი% |
| | 1 | | 0.070 |
| | | | |
| 2,320,230 | 2,320,230 | 205,985 | 9.7% |
| 2,320,230 | 2,320,230 | 205,985 | 9.7% |
| 2,320,230 | 2,320,230 | 205,985 | 9.7% |
| | 2,320,230 | 2,320,230 2,320,230 | 2,320,230 2,320,230 205,985 |

CONTINUATION / EXPANSION SERVICES:

The Recommended Budget includes an appropriation increase of 9.7% that is primarily driven by costs associated with maintenance and utilities of the new Allied Health Building. This increase also contains a larger request for Capital Outlay that is driven by improvements to parking, roadways, and paving a new area as well as the purchase of a new vehicle.

Community College Budget Detail:

A breakdown of local spending for Beaufort County Community College is as follows:

Detail on Current Expense Request

| | 2012 Approved | 2013 Request | Variance | Percent Change | |
|-----------------------------------|---------------|--------------|------------|----------------|--|
| Salaries and Benefits | \$ 1,022,000 | \$ 1,128,000 | \$ 106,000 | 10.37% | |
| Contracted Services and Insurance | 204,194 | 211,875 | 7,681 | 3.76% | |
| Utilities | 539,350 | 577,162 | 37,812 | 7.01% | |
| Supplies | 85,450 | 96,887 | 11,437 | 13.38% | |
| Repairs to Facilities | 75,000 | 94,281 | 19,281 | 25.71% | |
| Miscellaneous | 47,955 | 46,525 | (1,430) | -2.98% | |
| | \$ 1,973,949 | \$ 2,154,730 | \$ 180,781 | 9.16% | |

The increase related to salaries and benefits are attributed to an addition of a custodian and maintenance person due to the expansion of facilities. Other costly increases are a result of utilities which account for the additional square footage of the Allied Health Building.

Detail on Capital Outlay Request

| | 2012 | Approved | 20 | 13 Request | Variance | Percent Change |
|---|------|----------|----|------------|--------------|----------------|
| Alterations, Add. & Improvements to Buildings | \$ | 91,296 | \$ | 95,000 | \$ 3,704 | 4.06% |
| Land and Land Improvements | | _ | | 32,500 | 32,500 | 100.00% |
| Maintenance Equipment | | 19,000 | | - | (19,000) | -100.00% |
| Adm. & Communications Equipment | | - | | | - | 100.00% |
| Motor Vehicles | | 30,000 | | 38,000 | 8,000 | 26.67% |
| | \$ | 140,296 | \$ | 165,500 | \$ 25,204 | 17.96% |

Included in the FY 2013 capital expense budget request are funds to repair a parking lot and portions of the road as well as the cost of paving the compound area at the Industrial Technology Building. In addition, the Manager's Recommended Budget includes the replacement of a fleet vehicle, with the old vehicle being transferred to Law Enforcement on campus.

Continuation / Expansion Services:

Revenue shown in FY 2012 Est. is the estimated Lottery revenue expected to be received for the Fiscal Year as well as added Capital Outlay expenditures that are offset by the estimated revenue. Increased costs for FY 2013 are from a Manager's Recommended increase in Current Expense of \$223,301. This recommendation falls short of the Board of Education's request of \$500,000. Staff has relied on State estimates to come up with the expected Lottery revenue of \$486,000 which when added to the FY 2012 appropriation of Capital Outlay comes up with a total of \$962,060. The net cost increase is only representative of the FY 2013 Recommended Budget's increase of \$223,301 since the increased Capital Outlay is completely offset by Lottery Revenue.

Continuation / Expansion:

Continuation:

The decreased expenditures represent costs incurred in FY 2012 for legal costs associated with closing on the hospital lease deal with UHS (Vidant).

The Manager's Recommended Budget reflects a decrease in expenditures related anticipated utility savings. The decrease in revenue is due entirely to conservative estimates on Courthouse Facility fees collected by the Clerk of Court to offset operations of the building which is occupied primarily by State agencies.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Continuation expenditure decreases are primarily due to a decreased liability for the COBRA costs for Reduction In Force implemented in FY 2010 and one time professional services costs (lobbyist, jail architecture) that were incurred in FY 2012. Factors in the FY 2013 that represent an increase in the Recommended Budget are increased costs for health insurance premiums and travel increases.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Continuation The FY 2013 Manager's Recommended Budget reflects decreases driven primarily by falling unemployment benefits that the County has been paying since FY 2010 as a result of the Reduction in Force. The main cost driver for increases is a required upgrade to the financial software and additional funding that will hopefully allow the Finance Office software to connect to whatever software upgrades the Tax Office and Water Department accomplishes.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Expenditure increases are primarily driven by Expansion items which the Board should review as the funding represent policy changes recommended by the Board of Elections. Additional increases are passed on by the State for certifying voting machines for usage. Historically the certifying or testing of the voting machines was paid for by the State, but this year the State is requiring the counties to pay for the testing. This represents a \$21,000 increase in costs and will likely continue as the State has indicated that this will be a future cost continued to be passed on to counties.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The FY 2013 Manager's Recommended Budget reflects an increase to the Public Buildings primarily due to Expansion Items that are outlined in detail in the front of this document in the section titled *Expansion Items Discussion*. There are a number of items on the list that a recognized as items needing to be accomplished, but the Manger hopes to have a published capital improvement plan in the fall that will identify these projects by priority and when they could be funded. Decreases noted are anticipated savings in utility costs.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The expenditure budget overall is driven by increases associated with personnel costs and is almost entirely offset by one time equipment costs in FY 2012 that will not continue. An Expansion Item request for online automation of records was not included as the Manager's Recommended Budget assumes that this item will be decided and presented to the full Board by the IT Study Committee.

CONTINUATION / EXPANSION SERVICES:

Continuation:

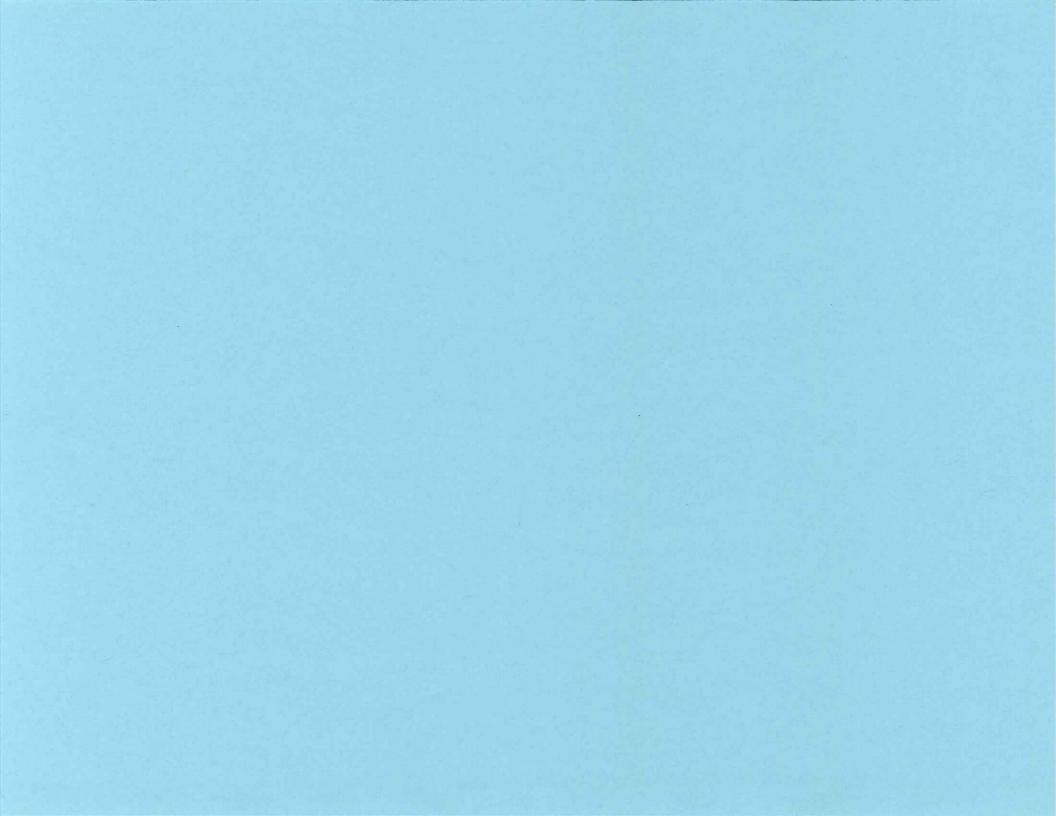

The continuation budget for Budget Year 2013 is driven primarily by decreases in personnel services due to legal costs resulting in collection of back taxes as well as foreclosure processing.

Health Department

Cost Centers:

The Budget Summary Table summarizes revenues and expenditures for the Health Department as a whole. The Health Department includes the following cost centers for the purposes of tracking revenues and expenditures intended for specific uses. The Health Department benefits from multiple revenue sources tied directly to certain cost centers (ie: fees, Medicaid, state funding, and grants) that reduce the overall net cost to the Beaufort County budget. Many Health Department services as described below are designed primarily for Medicaid eligible mothers and children:

General Administration, Immunization, Sexually Transmitted Disease Testing, Tuberculosis Testing,

Breast Cancer Testing, Health Promotion / Education, Child Health Services, Maternal Health Services,

Family Planning, Women and Infant Children (WIC), Child Service Coordination, Environmental Health, AIDS Control.

Cost Center Purposes

| | | 4. 2000 | |
|---------------------------------|----------------------------------|------------------------------|---|
| Cost Center Name | Customer Group | Significant Revenues | Intended Outcome |
| General Administration | Other health dept cost centers | Grants, State-Shared | Improved Efficiency of Work |
| Immunization | Adults, Some Children | Fees, Medicaid, State-Shared | Decrease Communicable Diseases |
| Sexually Transmitted Disease | Teens Adults | State-Shared | Identify Cases and Improve Education |
| Tuberculosis Testing/Tracking | Entire Population | Medicaid, State-Shared | Prevent Outbreaks |
| Breast and Cervical Cancer | Adult Women | State-Shared | Identify Cancer at Early Stages |
| Health Promotion/Education | Teens - Adults | Grants, State-Shared | Increase Awareness of Health Issues |
| Child Health Services | School-Aged Children | Grants, State-Shared | Health Care Access at School |
| Maternal Health | Women | Fees, Medicaid, State-Shared | Decrease Problem Pregnancies |
| Family Planning | Female Teens / Young Adults | Fees, Medicaid, State-Shared | Unplanned Pregnancy Reduction |
| Women and Infant Children (WIC) | Mothers and Children Up to Age 5 | Federal | Reduce Nutritional Related Health Problems |
| Child Service Coordination | Children Up to Age 5 | Medicaid, State-Shared | Decrease Developmental Delays |
| Environmental Health | Entire Population | Permit Fees, State-Shared | Prevent Public Epidemics |
| AIDS Control | Teens – Adults | Grants, State-Shared | Reduce Cases Through Education |

CONTINUATION / EXPANSION SERVICES:

Continuation:

The FY 2013 Manager's Recommended Budget includes increases in Personal Services primarily related to increases in health insurance costs and a recommended COLA increase. The decrease expenditures are reductions due to increased costs in FY 2012 related to Hurricane Irene costs, primarily from FEMA reimbursed mosquito aerial spraying.

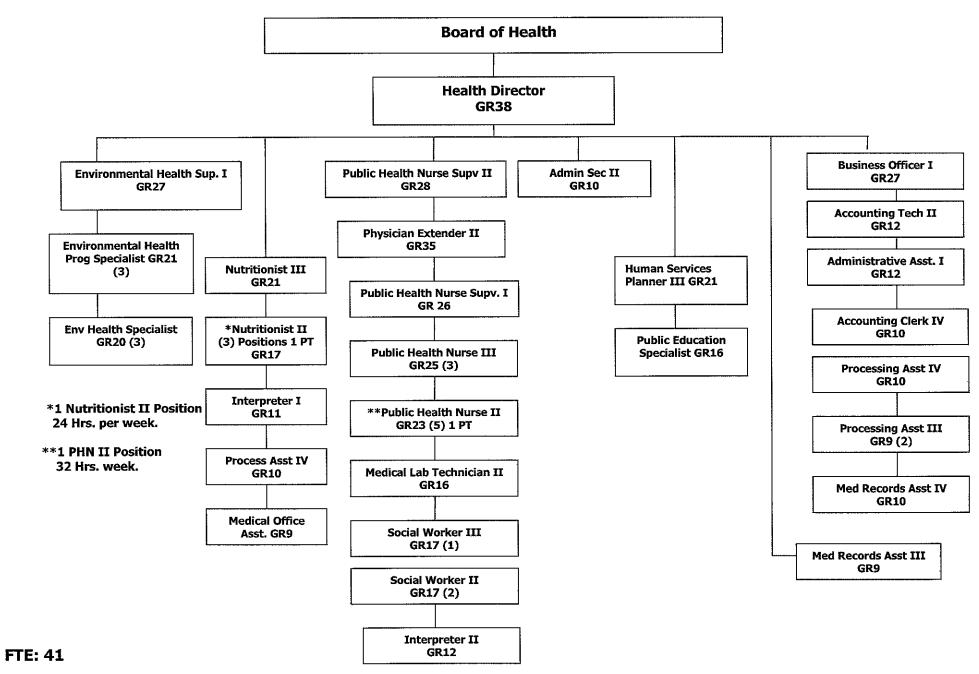

Expansion:

The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page.

Health - Cost Centers Defined

- 5110 Health General
- 5120 Health Immunization

CONTINUATION / EXPANSION SERVICES:

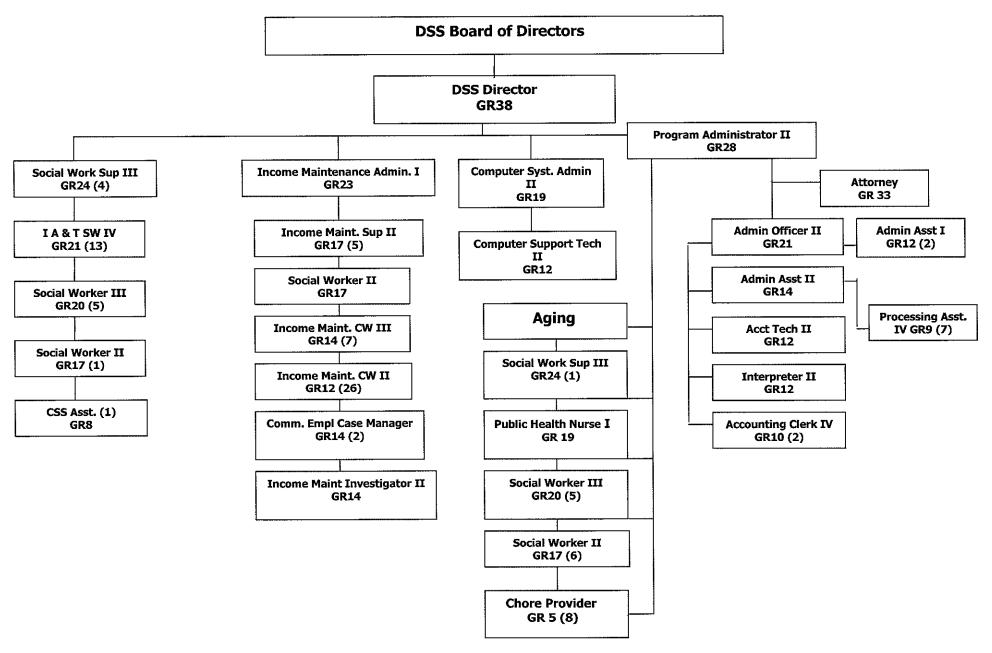

Continuation:

Increases for FY 2013 are almost entirely driven by Personal Services related to increased costs for health insurance and a COLA increase. Additional increases are associated with continued use of contract and temporary employees to handle spikes in service needs related to eligibility determination as well as out of town transportation of foster children. The usage of contract labor prevents increased FTE's and allows staff to cut back on costs when service delivery needs diminish.

Expansion:

The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page.

Social Services Program Budget

Mission:

Social Services Program Budget is a cost center within the Department of Social Services along with Aging Services. The major Social Services programs within the cost center include:

- -the County's state-mandated share of Medicaid spending on eligible transportation expenditures.
- -the revenues and expenditures specific to the County's collection of child support payments.
- -the revenues and expenditures specific to the County's foster care responsibility for Beaufort County children

CONTINUATION / EXPANSION SERVICES:

Continuation:

The expenditure increases/decreases for the Department of Social Services Program budget are explained by the following factors:

Medicaid - The historical comparison of net costs will provide the reader with a depiction of these programs benefiting the County greatly starting in FY 2009. The extreme variance in net cost is due to the Medicaid swap that was a result of legislative action in FY 2007. FY 2010 was the first year that the County had no obligation for Medicaid costs. Although the summary above depicts a large benefit to the County's net cost, the reader must understand the entire deal for the Medicaid swap the Legislature provided. The County was alleviated from this obligation, but also gave up the entire share of Article 44 Sales Tax as well as holding the municipalities harmless for this change. The County estimates the net benefit of the decreased Medicaid costs is \$1.8 million.

Revenues – A decrease in revenue is a result of across the board federal funding cuts that effect TANF (Temporary Assistance for Needy Families) at an estimated 20% reduction. Food stamp stimulus funds that were used to offset administrative costs will continue to diminish in FY 2013. By utilizing contract services for Food Stamp eligibility it is expected that when these decreases exist in revenue that staff can also decrease the costs associated with the service delivery. Unfortunately the increased demand for service delivery continues, even as the funding for the mandates decrease. Staff will work diligently in an attempt to meet the Maintenance of Effort for spending, therefore making us eligible for additional federal funds which could represent increased revenue. It is likely that this will not be accomplished in FY 2012 due to the tight Work First eligibility requirements. In the past the County was able to meet MOE through childcare subsidy, but due to lack of eligible participants for these costs, State funding also will continue to be decreased as the IV-E match has been completely eliminated from the State budget. Federal IV-E spending will also be limited and therefore DSS is planning on freezing positions until the entire impact of these funding cuts can be determined.

Expenditures - Foster Care continues to represents the driving force in the decrease in expenditures for the FY 2012 Manager's Recommended Budget. The net benefit to Beaufort County as a result of placement with children in relative homes as well as a more concerted effort to prevent out of home placement has been over \$25,000 in FY 2011 and continued into FY 2012. Staff now has three years of fiscal data under the new foster care system and so better estimated spending can be made, which reflects the decrease in FY 2013 related to foster care spending. Other decreased spending represents cuts made as a result of reduced revenue.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Increases in County Manager's FY 2013 Recommended Budget reflect decreases that are an attempt to reduce costs ahead of the TANF and other Federal funding decreases. The decreased costs within this budget are for medical supply cut backs as well as state pass through transportation funding.

CONTINUATION / EXPANSION SERVICES:

Continuation: Beaufort County makes a local contribution to match State and Federal support provided for programming that assists blind citizens. No change is recommended by the County Manager for FY 2013. An additional contribution of \$4,000 is provided to the local Blind Center to offset their costs.

Child Daycare Subsidy

About Child Daycare Subsidy:

Beaufort County receives federal funding in the form of the child care block grant as well as State funding in the form of Smart Start funding utilized as subsidy for eligible children of working parents in need of daycare services. The FY 2013 budget reflects continuation of the same level of funding for local subsidy dollars to assist the County in meeting its Maintenance of Effort (MOE) in an attempt to draw down more federal funding to offset other DSS programs. The reduction in spending is offset entirely by federal pass through funds. The net cost of this program remains the same as was funded in FY 2012.

Mental Health and Disability Services

Mission:

The mission of East Carolina Behavioral Health is to work in partnership with network providers and the community to ensure services are available for people who face significant challenges related to substance abuse, mental illness and/or developmental disabilities. Their commitment is to collaborate with providers to offer consistent evidenced based services within a system that is flexible, accessible, and respects a consumer's freedom of choice.

On July 1, 2007 East Carolina Behavioral Health started serving Beaufort County and currently serves 18 other counties through a state mandated consolidation. The Recommended Budget includes a cost of \$173,599 which represents the county's contribution to East Carolina Behavioral Health for these services at no increase from FY 2011.

Beaufort County Programs

The Beaufort County Developmental Center serves over 3,000 citizens annually and provides vocational development, job placement, residential programming, and housing support. In addition, specialized educational services are provided to children with or without disabilities. The Beaufort Area Transit System is the lead transportation agency in Beaufort County, providing transportation to the elderly, disabled and economically disadvantaged by getting them to clinics, hospitals, and pharmacies.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The Beaufort County Developmental Center made a level funding request for FY 2013 for both their center and for the operation of the Beaufort Area Transit System. Decreases represented in the FY 2013 Recommended Budget are for a one time reimbursement to DOT made in FY 2012 for an overpayment received the prior year.

Youth Services

About Youth Services Programs:

Youth Services Programs contains the financial data for the County's contribution to organizations providing treatment alternatives for at-risk youth. The County's contribution to this effort is predominantly funded through revenues from the NC Department of Juvenile Justice and Delinquency Prevention. The Beaufort County Juvenile Justice Partnership is a local advisory board composed of various citizens and officials concerned with Juvenile Delinquency. Although there is uncertainty on what cuts the State may impose on these funds, the Manager's FY 2013 Recommended Budget will reflect funding of \$176,981 from the state with a \$15,969 local match. The Partnership conducts a community needs assessment to determine the risk factors specific to Beaufort County. Private organizations (typically nonprofits) compete for Partnership funding in order to provide services for youth that the Partnership demands. Pamlico Pals is a Beaufort County nonprofit that continues to receive a County contribution of \$2,000 for its work matching interested adults with at-risk youth in need of constructive relationships. The Manager's Recommended Budget also includes an appropriation of \$40,000 to the Boys and Girls Club which is consistent with the contribution appropriated in FY 2012.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The large decrease in expenditures is entirely driven by Hurricane Irene costs for handling vegetative and construction and demolition debris. Based on contractual increases related to CPI as well as anticipated higher tonnage amounts from continual clean up efforts the County will see some additional continuation increases in FY 2013. The County will be entering the final year of it's solid waste contracts within the upcoming fiscal year and staff will be working to identify possible competitors who may want to participate in a bidding process. The County still bears the burden of an increased tax passed by the Legislatures in FY 2008 (Senate Bill 1942) that is passed onto us from the vendor that accepts our waste at the landfill. Staff recommends no increase in the tipping fee which is current set at \$90

CONTINUATION / EXPANSION SERVICES:

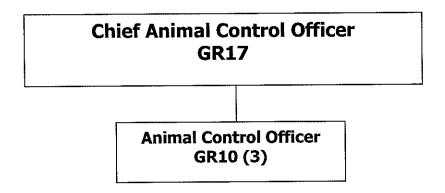

Continuation:

Increases in the Manager's FY 2012 Recommended Budget are primarily driven by Personal Services related to health insurance and a recommended COLA increase.

Expansion:

The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page.

Continuation:

Increases in the Manager's FY 2012 Recommended Budget are primarily the result of increased health insurance and a recommended COLA increase. The decreases are a result of Hurricane Irene spending in FY 2012 and the reductions for costs not occurring in FY 2013. The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page

Criminal Justice Partnership

About Criminal Justice Partnership

The Criminal Justice Partnership benefits from direction provided by a community board composed of a number of officials concerned about public safety. Partnership programming is intended to provide treatment alternatives to adult intermediate offenders. Partnership funding is funded entirely by the NC Department of Corrections and in FY 2013 the services were bid out as a grant to determine if cost savings could be achieved by the State. The current process required that the County be the prime recipient of the grant and therefore would act as the applicant. The application packet was submitted in April, and if selected the County will administer this program and likely the net cost to the County will decrease since there is reimbursed administrative costs that will be drawn down.

Fire Protection

Beaufort County Contribution:

The County allocates funding to the North Carolina Department of Environment and Natural Resources Division of Forestry Services for the provision of ranger services and fire protection. This funding represents a 40% cost share of NCDENR's local budget, with the State funding the remaining 60%. The State submitted a budget request for \$180,563 for the County's contribution, which represents a \$13,891 increase over the FY 2012 request. After a review of historical actual spending for this category, the Manager's FY 13 Recommended Budget decreases that appropriation based on staff's expectations of what will actually be spent. If the Board of Commissioners approve this level of funding it should be noted that in the event we have a disaster in the County that requires heavily utilized fire services the additional \$28,391 would need to be appropriated.

Also included in this section is a \$3,500 expense for the insurance, upkeep and repairs of the Fire Safety House. The Fire Safety House is a mobile educational tool used by all fire personnel in the County to provide fire safety education to children at schools, churches, and businesses.

CONTINUATION / EXPANSION SERVICES:

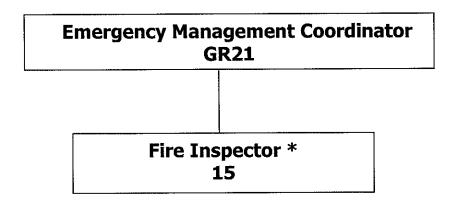

Continuation:

The continuation increases are entirely related to Personal Services due to health insurance and recommended COLA increases. Overall decreased costs are a result of Hurricane Irene spending in FY 2012 and the subsequent reduction for FY 2013.

Expansion:

The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page.

ORGANIZATIONAL CHART FOR EMERGENCY MANAGEMENT FY 2012

*Part time – no more than 20 hrs. per week. Receives medical benefits only. Does not receive County contributions for 401K or Retirement.

Rescue/EMS Contributions

ABOUT RESCUE/EMS CONTRIBUTIONS:

Washington Township (unincorporated) benefits from 24/7 paid EMS coverage certified at the intermediate level provided by the City of Washington. The cost to the City for providing the service is partially offset by revenue collected through a levied tax of 5 cents per \$100 from Washington Township. The increase in the contract represents a slight increase in the net cost for FY 2013.

In FY 2010 a special tax of 5 cents per \$100 was levied for Pantego Township to provide 24/7 intermediate level of the care for the area, including the municipal areas of Belhaven. An agreement with the Town of Belhaven allowed the County and the Town to share the cost at 72/28%. The County's share of this EMS subsidy is \$65,400 and accounts for the majority of the net cost increase in this cost center.

The Sidney Dive Team is an 18 person team that has been in operation since 1994 and is based out of Fire Station 81. The Manager's Recommended Budget includes an appropriation of \$10,000 which reflects the same funding provided in FY 2012.

Medical Examiner

Beaufort County Contribution:

The County is billed by the State Medical Examiner at UNC Chapel Hill for all autopsies performed on deaths that occur within the County as required by Article 16, Chapter 130A of the North Carolina General Statutes. The recommended budget is an estimate based on prior year actual spending. Staff researched the increase and discovered that since FY 2008 there has been a 68% increase in reported deaths to the Medical Examiner which results in the increase costs from that time period. The FY 2013 Manager's Recommended Budget includes level funding as was predicted for FY 2012.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Increases in the Manager's FY 2013 Recommended Budget are primarily driven by increased health insurance and a recommended COLA increase. Additional increases are primarily driven by expansion items and detail on these requests can be found at the beginning of this document in the Expansion Item Discussion page.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The primary cost driver for the FY 2013 Manager's Recommended Budget is primarily the result of increased health insurance and a recommended COLA increase. The Manager's Recommended Budget decreased inmate safekeeping to track more historical spending trends, but if modifications are made to the jail facility it may require more inmates to be housed in other facilities.

Expansion:

The detail on expansion items can be found at the beginning of this document in the Expansion Item Discussion page.

CONTINUATION / EXPANSION SERVICES:

Continuation:

Increases in the Manager's FY 2012 Recommended Budget are primarily the result of increased health insurance and a recommended COLA increase. Additional increases are a result of increased maintenance contracts, uniforms, and travel. Revenue for FY 2013 comes from the annual contract with the City of Washington to accept all 911 calls for the City.

Culture and Recreation Summary

Culture & Recreation Functional Area:

These funding requests from outside agencies are grouped together in one functional area due to the common goal among each agency of improving the cultural opportunities and business climate resulting in an attractive Beaufort County lifestyle. A list of each organization and funding amounts is immediately attached.

The Manager's Recommended Budget includes no increased funding for the agencies within this cost center with the exception of a requested 3.5% increase for the BHM Library primarily due to insurance increases. An additional requested increase of \$5,000 for the Highway 17 Association was also included in the Manager's Recommended Budget. A decrease in revenue as well as an offsetting decrease in expenditures represents the final year of a Purpose of God pass through grant that expired in FY 2012. The decreased net cost is due to the lack of funding for a Turnage Theater Incentive Grant that was allocated in previous years. The table below represents funding requests as well as what is included in the Manager's Recommended Budget.

*Note: North Carolina Counties often make decisions to fund organizations who contribute certain services beneficial to the County's population that may not result from a historical local government mandate. In such circumstances, the County Manager includes in the Recommended Budget the Board's appropriation from the previous year. New requests from such organizations are not included in the Recommended Budget, but all requests are listed below:

CONTINUATION / EXPANSION SERVICES:

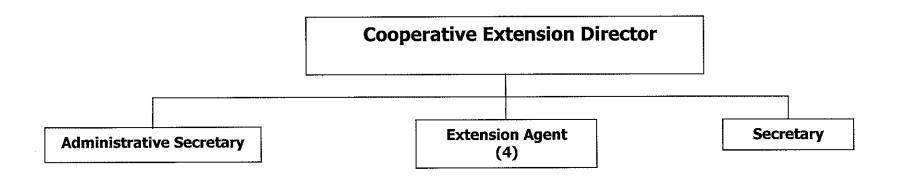

Continuation:

In January 2009 the State made changes related how the County's portion of personnel charges would be paid. The State now pays the Cooperative Extension employees directly and drafts the County pays their portion each month. All salaries and fringe benefits are paid through the personnel contract line item. Significant fall out savings are experienced in FY 2012 and will likely exist in FY 2013 as well, based on State hiring freezes which generates lapse salary. The increases in the budget for FY 2013 is due to the County's portion of a rental agreement increase for IT equipment.

Expansion:

There are no expansion requests for Cooperative Extension for the FY 2013.

CONTINUATION / EXPANSION SERVICES:

Continuation:

The County's contribution to Beaufort County Economic Development is included in the Planning Department budget. The County assumes 68% while the City of Washington assumes 32% of this budget, after taking into consideration all other revenues from the local municipalities for the EDC Fund. The decrease noted in the Manager's Recommended Budget for FY 2013 is due to the decrease of contract employment for putting up the County street signs. The FY 2013 Manager's Recommended Budget includes the same appropriation to the EDC as was appropriated in FY 2012, but it should be noted that any decreased contribution by local municipalities would require an increased County contribution or decrease in the EDC budget. Additional items funded within the Planning Budget is the Mideast Commission membership contribution as well as their contract for County Planning and Addressing.

CONTINUATION / EXPANSION SERVICES:

Continuation:

An increased net cost in FY 2013 is attributed to a one time grant that was a result of hog lagoon closures during both the Fiscal Years 2011 and 2012. Staff have continued to pursue grant opportunities as they become available. Increased costs are driven primarily by partial funding of one staff position in FY 2012 and experiencing the entire cost in FY 2013 as well as expansion items.

ORGANIZATIONAL CHART FOR SOIL CONSERVATION FY 2012

Administrative Assistant I GR12

District Resource Specialist GR15
