“Check My Symptoms”

NCDHHS has created a “Check My Symptoms” tool that will help you check your symptoms online and determine if you will be recommended to be tested for COVID-19. After you enter your symptoms, if it is recommended that you get tested, you will receive a list of nearby testing sites via email or text. This is an informational tool to help you determine if you may need to be tested; however it is not a physician order. Testing sites may require their own screening. The “Check My Symptoms” tool can be accessed using the following link.
